1. Would you please send me whatever in-flight shots you have of the following:

MIG 15 (improved models too)
IL-28 (twin-jet lt. bomber -- TU-14 is the navy equivalent -- include it too, if available)
TU-4
Type 31 (medium bomber -- it appeared in the '51 fly-past)

2. We seem to be narrowing the field to aircraft and personalities, for the present at any rate. I am using the NIS personality pages as examples in the latter field. We would like to get some good shots of the aircraft listed in Paragraph 1, since these are the main combat types now in production.

3. We are returning the photos you sent the other day, but I am taking the liberty of retaining the following for the time being:

CIA-P-10103
CIA-P-6068
CIA-P-6067
CIA-P-38363
CIA-P-185
CIA-P-15274
CIA-39193
B-40466AC
CIA-65642

4. Thank you very much for your help.
